Purpose of the presentation

- To talk about the **Better Care Together Programme**
- To tell the board about the big ideas for learning disabilities
- To ask the Board if it agrees with the big ideas for learning disabilities

Better Care Together

One big plan for health and social care across Leicester, Leicestershire and Rutland

5 year plan

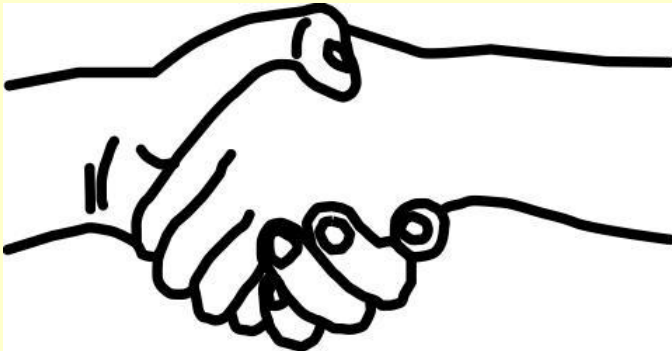

Make sure people have the right support at the right time and by the right people

Support for Carers

Good quality services

Make sure we are spending money well

Use the same services as everyone else and get a good service

Learning Disabilities

Services and support in Leicester that mean people do not have to move far from home

Better Support for Carers including getting a break from caring

Good quality services and support at a fair price

Making sure peoples needs are met and they are supported to do the things they want to do

Joint working with Children's Services to help families and young people prepare for adulthood

Learning Disabilities

Making sure people get the right support quickly if there is an emergency or crisis

People with learning disabilities are supported to stay independent for as long as they can

People with learning disabilities are supported at the right time in the best place to give that support

Partnership Board

Do you agree we are working on the right things?

Is there anything we have not thought about?

How you can be involved in the work that is taking place

Do you have any questions?

Thank you
